

K-love provides not only encouraging and uplifting music, it also relates information on upcoming concerts, events, and general points of interest locally and on a national level. If not for these services, I, along with many others, wouldn't be aware of these events.

In addition, should K-love be displaced by an LPFM broadcaster, local organizations would have to pay a fee to advertise what K-Love already provides as a service: getting the word out.

K-love provides substance in a vacuous lineup of radio programming. People spend countless hours in the car en route to various locations, a lot of that time is spent flipping through the stations. In a world where depression is rampant and people are resigning themselves to lives without hope, K-Love is an oasis offering just that - Hope.

Please keep K-love's broadcasting signal accessible to all of its local stations. Thank you.
